Nozzle Vacuum Sealer with Gas Purge (EV Series)

Vacuum Sealer

Digital Controller

Features for Vacuum Sealer

- * High productivity and smooth operation using a driving method of an air pressure cylinder
- * Stainless steel case with many options: stand, angle calibration system (manual, automatic), printer
- * Easy to use with most functions with state-of-the art digital controller: Sealing + Vacuum (3 modes) + Gas charging (4 modes) + 25 Preset Memories
- * A compact model easy to handle
- * A built-in vacuum pump with high power external vacuum pump
- * A built-in and detachable innovative vacuum pump with low noise and low vibration
- * Widely used from food industry to bio and electronics industry
- * Safety design comprehensive enough to meet the standards of advanced countries

Features for Digital controller

- * Most modes: Sealing + Vacuum (3 Modes) + Gas Charging (4 Modes) => 8 modes
- * 25 preset memories which are the largest that offer easy-to-handle and rapid conversion to different work
- * Heat wire cutoff alarm system for the first time
- * Quick Mode applied to simplify handling and convenient for bulk operation
- * Key lock to prevent malfunction
- * Vacuum sensor for reliable vacuum packing
- * LED built-in to rapidly diagnose the machine
- * Compatible with external devices with many options
